

TA TRAINING FEEDBACK FORM

We regularly revise or add features to our departmental training for prospective TAs, and would welcome your feedback on how to further improve. Please fill out this form after your teaching practice today and leave it in the box outside 56-614. Alternatively, you can print out this form from the wiki, type in your answers, and drop off the completed form at 16-319 (Agi's office).

1. List 1-3 features of the training (you can be as general or specific as you want) that were particularly helpful as you prepare for your TAs, and briefly explain why.

2. List 1-3 features of the training that could be made more useful and briefly explain how.

3. Does anything come to mind that is *missing* from the training that would help you prepare?

Any additional comments?
